

PABI September 2016 General Membership Luncheon Bayou Barriere

The September General Membership Luncheon was held on Thursday, September 29 at Bayou Barriere Golf Club. The keynote speaker was Carlton Dufrechou, General Manager of the Causeway Commission. The Causeway covers 24 miles and is the longest bridge over water in the world. With a daily traffic flow of approximately 30,000 vehicles and no shoulders, the Commission is proposing an increase in tolls to fund safety measures to prevent crashes. The last toll increase was in 1996.
